John Gyapong is a public health physician/epidemiologist; Director of the Health Research Unit of the Ghana Health Service and Programme Director of the Ghana-Netherlands Programme for Health Research and Development. He is also Professor of Epidemiology and Disease Control at the School of Public Health, University of Ghana and Adjunct Professor in International Health at the Georgetown University in Washington. He had his basic medical education at the Kwame Nkrumah University of Science and Technology in Ghana and later studied epidemiology and public health at the London School of hygiene and Tropical Medicine (MSc & PhD).

He has considerable experience in infectious diseases epidemiology especially lymphatic filariasis, Onchocerciasis and malaria and has been involved in several large scale field epidemiological trials in Ghana. He has also involved in several work on STI, reproductive health research and health systems research. He serves on several international research review committees and boards.
