The written report will be presented to the internship employer before being submitted to the Dutch educational institution.

Article 7: Disputes

The intern will approach the internship employer first in the event of a dispute.

If the dispute cannot be resolved amicably between the internship employer and the intern, it will be taken to the Dutch educational institution, which will seek to find a solution acceptable to all parties.

Article 8: Supervision and evaluation

The Dutch educational institution and the internship employer will both appoint internship supervisors who will be responsible for supervising the intern.

If problems arise, the two internship supervisors will contact each other.

There will be an interim evaluation and a final evaluation. The parties will agree on what shape these evaluations will take.

At the end of the internship, the Dutch educational institution will require a report from the intern. The requirements of the report will be known by the student before the internship begins. The internship employer will be presented with a copy of this report.

The Dutch educational institution will inform the internship employer that the internship has been terminated.
