

# Country Focus Document

## Orange Knowledge Programme (OKP)

**Last update: 1 February 2023**

February 2023: To be more aligned with the policy '[Do what we do best](#)' of the Dutch Minister for Foreign Trade and Development Cooperation, some changes have been made in the country list of the Orange Knowledge Programme. For the scholarships and group training calls in 2023 only 30 countries are eligible. Eligible countries can be found in the table below.

### Co-funding

Note that co-funding is only applicable for group trainings – not for individual scholarships. The percentages shown below in the “co-funding” column show the minimum percentage of co-funding required. At least half of this minimum percentage should come from the requesting organisation. The remaining required amount of co-funding is free to come from various other sources. Please note that the leniency measures concerning co-funding applied in the past years due to the Covid-19 pandemic are not extended to the calls in 2023. This means that the percentages as mentioned in the table below are the minimum requirements.

In order to enhance the effectiveness and sustainability of individual scholarships and TMTs, applications should be linked to the priority areas provided by the Embassy of the Kingdom of the Netherlands. The Embassy of the Kingdom of the Netherlands would like to support the strategic partners or organisations in the table below.

For some countries, the focus for the TMT and TMT+ calls in 2023 are further specified. If so, this is mentioned in the respective country row. These further specifications for TMT and TMT+ are not applicable to the scholarships.

Country	Priority areas	Strategic partners and/or additional information	Co-funding	ODA Country Category	OKP Country Category
Bangladesh	<p><b>For scholarships:</b></p> <ul style="list-style-type: none"> <li>- Integrated Food and Nutrition Security (including water and climate change)</li> <li>- Integrated water resources management</li> <li>- Delta management</li> <li>- Maritime development including port development</li> <li>- SRHR</li> </ul> <p><b>For TMT(+):</b></p> <ul style="list-style-type: none"> <li>- <b>Integrated water resources management (as part of Integrated Food and Nutrition Security).</b></li> </ul>	Please find more information regarding this country in the Country Plan of Implementation (CPI) on our website: <a href="#">Country themes - Orange Knowledge Programme   Nuffic</a>	0%	LDC	A
