Annex 2: Audit protocol for the auditor's report

1.1 Introduction

This audit protocol provide information for both the audit firm as well as for grant recipients on submitting reports in accordance with the Orange Knowledge Programme (OKP) requirements of Nuffic.

1.2 Framework of standards

The following framework of standards applies to the Orange Knowledge Programme:

1. [General Administrative Law Act](#);
2. [Ministry of Foreign Affairs Framework Act on Grants](#);
3. [Ministry of Foreign Affairs Grant Decree](#);
4. [Ministry of Foreign Affairs Grant Regulations](#);
5. [Policy framework Orange Knowledge Programme](#).

In addition, the following documents are relevant for the auditor's activities:

1. the grant award letter in connection with the OKP grant;
2. the OKP Grant Obligations & Conditions;
3. the document [Toelichting normbedragen Orange Knowledge Programme \(OKP\)](#);
4. if applicable, findings and recommendations of previous audits.

For more information on the Orange Knowledge Programme go to: www.nuffic.nl/okp .

1.3 Reporting requirements

Reports are made in Nuffic's grant application system based on data as recorded in this system by the grant recipient. Data in the grant application system are recorded based on the grant recipients administration. Once the data are recorded in the grant application system, the grant recipient can print the report and submit it to Nuffic by uploading it in the system. The reports that have been made in the grant application system are leading in the process of grant settlement.

Reporting requirements are stated in the OKP Grant Obligations & Conditions. All reports for a grant with an amount of EUR 125.000 or higher must include an auditor's report (unless Nuffic decides otherwise).

1.4 Choice of audit firm and audit method

The audit must be conducted by an independent auditor who is acceptable to both Nuffic and the grant recipient. In principle, grant recipients are strongly advised to choose an auditor registered with the national, legally recognised institute of registered accountants in the country of residence, which in turn is a member of the International Federation of Accountants (IFAC). If an accountant without this requirement is chosen, this must be communicated to Nuffic in advance for Nuffic's approval. The audit may not be conducted, however, by the organisation's own internal audit department.

The auditor holds primary responsibility for the audit method. This audit protocol therefore does not intend to prescribe any particular audit method to be used. Auditors mostly base their audit on a (risk) analysis of the accounting system and related internal controls in respect of the grant recipients' submitted report and, based on this, they are in the best position to decide on what means of auditing to apply. As this results in custom solutions per grant recipient, it is impossible to prescribe any particular method. The audit should be carried out in accordance with the International Standards on Auditing (hereinafter: ISA), or equivalent standards i.e. Dutch Standards on Auditing (herinafter: NV COS).

The auditor who is responsible for the audit of the submitted report is to ensure an adequate audit method and a client-specific work programme, in which context sufficient attention is given to the internal controls of the subsidy accounts and to the level of audit tolerance.

1.5 Objective of the audit protocol and objective and scope of the audit

This audit protocol provides further instructions for the auditor's work and report, and lays down the auditor's tasks and responsibilities. However, this audit protocol does not intend to prescribe an audit approach and it is not an (exhaustive) work programme.

The auditor examines to what extent the submitted report meets the relevant requirements, as set out in the audit protocol. While doing so, the auditor must give adequate attention to the provisions of the framework of standards. The auditor performs the assurance engagement with due regard to this audit protocol. The auditor's examination results in an auditor's report accompanied by the submitted report.

The objective of the audit is to give an opinion on the submitted report in order to assess, in particular, its accuracy and the legitimacy in all material respects. Expenditures will be regarded as legitimate if: they comply with the conditions of the grant, including Addenda. Furthermore, the auditor has to evaluate the grant recipients' own system of internal control with respect to the OKP grant, to estimate the audit risk, and to identify any matters worthy of mention, including any material weaknesses in the internal control system.

In addition, the auditor provides in its report an opinion on the submitted report. The auditor is to sufficiently consider whether the grant recipient has complied in all material respects with the grant award letter and with the Grant Obligations & Conditions that apply.

1.6 Accuracy

The auditor organises his audit in such a way that he can state with a reliability rate of 95% that the submitted report contains no misstatements with a significance larger than the prescribed levels of materiality. To determine the opinion of the auditor's report, the following levels of materiality apply:

Levels of materiality in percentage of the report amount	Misstatement in the submitted report		Uncertainties in the submitted report	
	Qualified	Adverse	Qualified	Disclaimer of opinion
Compliance	> 1 and < 3	≥ 3	> 3 and < 10	≥ 10

1.7 Points of attention

This section provides points of attention for the auditor in conducting his audit.

General

The auditor takes cognisance of the framework of standards, the grant award letter and any additional written agreements. In addition, the auditor takes cognisance of relevant correspondence.

The auditor must receive a letter of representation from the grant recipient's management stating that, to the best of its knowledge, the submitted report, is accurate and complete in every respect and that all grant conditions have been met.

The auditor must ensure that the audit file contains sufficient documents of an appropriate and relevant nature and must record the audit procedures used and the outputs obtained in the file.

Audit requirements

In performing the audit, the auditor is to establish that at least the following has been complied with:

- The data derived from the administration are correct and agree with the underlying records and other documents held by the grant recipient, either in Nuffic's grant application system or the institutions' student administration. The following should be audited, based on underlying documentation:
 - a. All scholarship holders reported have actually followed the course as reported;
 - b. In case of scholarship holders with the status *withdrawn*, fixed reimbursements for visa cost and travel costs can only be declared if these costs have actually been made;
 - c. Scholarship holder start and end date are as reported, including extensions;
 - d. In case of financed extension: the conditions relating to financed extension have been applied correctly in conformity with paragraph 'Financed extension of a scholarship' (articles 4.10 – 4.14) of the Grant Obligations & Conditions. Please note that the *Extension* field in the grant application system and as included in the report can also be used by the institution to register the additional costs for arrival and departure of scholarship holders for Short Courses, if applicable. If applicable: period of study in an OKP country as described in Annex I of the OKP Grant Obligations & Conditions;
 - e. Country of Origin of employer as reported is correct as indicated on the OKP employer statement of the scholarship holder;

- the fixed reimbursements for subsistence allowances, study materials and if applicable e-learning facilities included in the submitted reports have actually been made during the grant period and paid to or on behalf of the scholarship holder before submitting the final report.

Points of attention

If the auditor detects any unlawfulness in connection with the grant recipient and other parties involved, for example any gift, reward, compensation or benefit of any kind offered or accepted in a way that could be construed as illegal or corrupt, the auditor acts in accordance with ISA 240 (NV COS 240) and he is obliged to report this to Nuffic.

The auditor's report concerns the certified (stamped and signed) submitted report.

The auditor obtains a Letter of Representation.

1.8 Review

Nuffic reserves the right to have the audit reviewed by engaging an independent auditor who will conduct the review. The auditor concerned, grant recipients and other parties involved must fully cooperate with this review, supplying the reviewer with all relevant documentation related to the audit, provided that supplying this documentation will not be

contrary to any law and regulation. The auditor is obliged to provide the reviewer, in mutual understanding, with any information included in the audit file, provided that doing so is not contrary to his professional standards.

1.9 Audit files

The audit firm must keep an orderly and accessible audit file for the subsidy account. This file must be kept for 7 years from the date the audit was completed. All working papers and reports must be in the English language.

This requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the report.
