1. Introduction: The Orange Knowledge Programme

Nuffic's Orange Knowledge Programme is a 5 year global development programme, aimed at strengthening professionals and organisations through education and training. It contributes to the goals of the Netherlands' [development cooperation policy](#), in which education plays a significant role.

The programme offers funding in 54 countries for individual scholarships, tailor-made trainings and institutional partnerships between Dutch and foreign education institutions in Technical and Vocational Education and Training (TVET) and higher education. It focuses on the priority themes of the Dutch government (Water, Food and Nutrition Security, Sexual Reproductive Health and Rights, and Security and Rule of Law) and aims throughout the programme for inclusion, employability and environmental sustainability.

Nuffic is programme manager, in close collaboration with the programme's funder, the Netherlands' Ministry of Foreign Affairs. Running from mid-2017 to mid-2022, it will offer at least 51,000 people the chance to change their future through education.

The Orange Knowledge Programme Tailor-Made Plus Training is meant to improve the overall functioning of organisations by training a selected group of staff. A Tailor-Made Training can solve knowledge and skills challenges of organisations' staff, by specifically targeting their capacity needs.

More information about the Orange Knowledge Programme such as the basic principles and the policy framework can be found on the Nuffic website:

<https://www.nuffic.nl/en/subjects/orange-knowledge-programme>.

The Orange Knowledge Grant Obligations and Conditions for group trainings, which are binding for Tailor-Made Training Plus, can be found among the 'Guidelines and formats' under the link to this call.

The Orange Knowledge Programme focuses on sustainable strengthening of capacity within local priority themes relevant to Dutch development cooperation which are outlined in the Country Plans of Implementation (CPI). Click [here](#) for the CPI's per country.

The Theory of Change (ToC) of the Orange Knowledge Programme describes the interlinkages between capacity building and sustainable inclusive development to which each approved initiative under the Orange Knowledge Programme contributes. The ToC can be found [here](#).

This document describes the procedure for submitting an Orange Knowledge Programme grant application for a Tailor-Made Training Plus.

2. Information specific for this call

2.1 Long-term impact

The Theory of Change (ToC) of the Orange Knowledge Programme presents the expected medium and long-term impact and outcomes of the programme. Each impact and outcome is quantified by a number of indicators which are described in the Orange Knowledge Programme Monitoring and Evaluation Framework and relates to the M&E Framework of Ministry of Foreign Affairs.

All projects must contribute to achieving these impact and outcomes. The grant application and, if the application is selected, subsequent reporting must give insight into how the project will contribute/contributes to achieving impact and outcomes.

The [CPI](#) gives all details about the impact, outcomes and indicators of the ToC of the Orange Knowledge Programme and of the contribution to the thematic ToC(s) specific to the country in question in Annex 2A.

The proposed project must contribute to the following objective:

- Contribute to promoting just, peaceful and inclusive societies and achieving legitimate stability (SDG 16)

The proposed project must contribute to the following long-term impact:

- Citizens are better able to access their rights through fair, efficient, impartial, independent and accountable institutions

The following medium-term impact will contribute to this:

- (I) Education system (TVET/HE) is of good quality, relevant and accessible (SDG 4);
- (II) Partnerships between persons and organisations are inclusive and sustainable (SDG 17);
- (III) Organisations key to (sectoral) inclusive development of partner countries are strengthened by inflow of enhanced workforce.

This will be achieved by the following outcome:

- A. TVET/HE organisations (in the selected partner countries and in the NL) perform their core tasks better, firmly embedded in their environment, in line with country/regional specific labour market needs and aiming at inclusiveness;
- B. Enhanced knowledge and skills of individuals and organisations (in partner countries and in the NL) in line with country/regional specific labour market needs and aiming at inclusiveness.

In the Orange Knowledge Programme format for a grant application the consortium partners will be asked to select relevant indicators to measure the achievement during and after project implementation at medium-term and long-term-level.

2.2 Context of the call

On COVID-19: all organisations working on proposals for TMT+ are requested to explicitly take into account the possible consequences of COVID-19 on the project implementation, in questions 1.3.4, 2.1.1, 2.1.4 and 2.2.3 of the joint proposal. In particular, describe in these questions the strategies you have chosen to cope with the travel limitation.

On complementarity: One guiding principle of the Orange Knowledge Programme is integrality: in the alignment with other Dutch centralised or decentralised development programmes and in the optimal integration of the available four OKP instruments (Institutional Collaboration Projects, Tailor Made Trainings, Scholarships, alumni activities). Please take this guiding principle into account when developing your proposal and elaborate on it in question 1.1.7 of the joint proposal.

The objective of this call is to contribute to legal certainty in Indonesia by increasing the quality and skill set of judges who work in the judicial sector.

Explicit reference is made to the Country Plan of Implementation (CPI) for Indonesia (section on Security and Rule of Law), which clarifies the context and expected long-term impact to which the Tailor-Made Training Plus under consideration has to contribute.

Specific capacity gaps/labour market needs that need to be addressed:

- The quantity of the training (continuous legal education) given to the judges is limited and is insufficient for judges to continuously enhance their skills to cope with developments in the justice sector;
- The system for judicial training is not yet fully prepared to guarantee, in a sustainable way, qualitative training and education to newly recruited judges, particularly in relation to the planned in-flow of 1000 candidate judges annually;
- E-learning is being applied to train judges, yet skills, content and structures are not yet up to standard to make optimum use of e-learning and/or blended learning.

Apart from the generic criteria and objectives of OKP, the proposed project will need to be in line with the following additional criteria:

- Focus on both continuous legal education of existing judges, as well as the organisational and institutional capacity and leadership to achieve improved quality and quantity of training;
- Address skills enhancement of judges, including the use of jurisprudence and soft skills, strengthened curriculum and better use of research resources as well as improved educational and didactical skills of the trainers;
- Further the development and use of e-learning and blended learning with specific attention for accessibility and use in remote regions. Technical and institutional sustainability for e-learning needs to receive specific attention;
- Strengthen the capacity to use case law and improve existing collaboration in this field;
- Address social context and gender aspect within the training curriculum;
- Support the increase in quality and quantity of the pool of trainers, e.g. through (advanced) Training of Trainers of new and existing trainers;

- Address the improvement of the monitoring and evaluation mechanisms of the training of judges;
- Specifically address the position of women and marginalised groups both at organisational level as well as at educational level;
- Explain how the project will capitalise on similar interventions by other donors that aim to strengthen the educational and organisational capacity for training judges;
- Include the relevant stakeholders in the public sector engaged in training of judges and relevant ministries that have an important role in the monitoring and sustainability of results and post-project funding;
- Incorporate lesson learned on training capacity for judges in Indonesia;
- The Dutch consortia must consist of organisations who have expertise on training of judges.

This call for group training projects in Indonesia focuses on increasing the quality and skill set of judges who **currently** work in the judicial sector. It follows and builds on an ongoing Tailor-Made Training Plus partnership that started in early 2020 and focuses on the initial training of **candidate** judges (find the information [here](#)). Together, these calls are part of a complementary approach to address the capacity needs and gaps as identified in the CPI and should be interpreted as such. The project should be closely aligned with national policies as well as with other current initiatives (including projects funded by Nuffic and/or the Dutch Embassy) to maximise impact and ensure complementary value of the intervention.

2.3 Co-funding

Co-funding is one of the key principles underpinning the programme. It contributes to reciprocity and increases ownership of the collaboration. Co-funding may involve public, private and/or own funds.

Indonesia is considered to be LMIC according to OECD's DAC list. This means that an application for this call must include a co-funding amount of 15 % of the budget that is applied for (total implementation costs). At least 50% of the required co-funding must come from local funding in the partner country.

A contribution from public funds is defined as: a contribution in cash or in kind to which is directly or indirectly paid for from state resources. State resources comprise all funds from the public sector, including funds from local levels of government (decentralised, federal, regional or other) and, in certain circumstances, funds from private bodies.

Public funds from the Ministry of Foreign Affairs of the Netherlands (including embassies) do not count as co-funding, but can be added to the project.

Private funds are considered to be all funds – in cash or in kind – that are not state resources.

2.4 Questions about the call?

If you have a question about this call you can send an e-mail in English to TMT@nuffic.nl. Mention in your e-mail the call number.

3. Specific characteristics of Tailor-Made Training Plus

Orange Knowledge Tailor-Made Training Plus (TMT+) supports organisations by training a selected group of staff. Tailor-Made Training Plus can also be used to train professionals who have a common training need, but who are not staff members of the same organisation. An organisation from a partner country and a Dutch training provider must jointly formulate a training proposal. The joint proposal must be submitted by a Dutch training provider, potentially on behalf of their consortia.

The Tailor-Made Training Plus consists of at least a tailor-made training that fits the priority themes and focus areas for the country of the requesting organisation as specified on the first page of this call document. The following elements apply to TMT+:

- stronger emphasis on the sustainable embedding of the results within the organisations;
- stronger emphasis on involvement of a local/regional consortium partner with whom the requesting organisation ideally maintains a relationship after TMT+;
- room for innovative approaches such as living labs, blended learning, study visits or short internships.
- possibility to include investments of a maximum of 10% of the OKP subsidy amount in the budget. The added value of the investment should be clearly demonstrated in the proposal.

The Tailor-Made Training Plus has a maximum duration of 24 months. Please note the training should be finished before 31 March 2022.

3.1 Eligibility

Grant applicants

Eligibility for OKP Group Training grants extends to Dutch institutions providing secondary and higher vocational and academic education or other types of Dutch organisations that provide educational training courses and that also contribute to strengthening of the priority themes in the countries on the Country List. These institutions must deliver the training themselves; intermediary organisations are not eligible. The institutions must have sufficient organisational and financial capacity to run a training course. This can be demonstrated using a COCA that is assessed as positive by Nuffic. The organisations must also have demonstrable experience in providing the desired training course.

Group training target group

To be eligible for an OKP Group Training grant, an application must propose a training course for candidates who meet the following criteria:

The candidates work for one of the following types of national and/or local organisations: ministries, secondary or higher vocational or academic education institutions, universities, private sector, commissions or NGOs. The candidates may not work for:

- a bilateral or multilateral organisation;
- a non-governmental organisation that is internationally active and is focused on representing social interests, such as development cooperation, nature and environmental protection, health or human rights.

The candidates must have the nationality of or be resident and working in one of the OKP countries for which grant applications for providing the type of group training courses concerned can be awarded (see the Country List Annex).

The candidates must be in a position to apply the acquired knowledge and skills in practice.

Please consult further requirements in the publication of the policy framework in [the Staatscourant](#) and in subsequent amendments.

3.2 Grant Obligations and Conditions

By submitting a grant application the applicant agrees with the Grant Obligations and Conditions for Group Training (version 4.0). The Orange Knowledge Grant Obligations and Conditions for group training can be found among the 'Guidelines and formats' under the link to this call.

3.3 Assessment

Assessment of the joint proposals will be done by Nuffic in consultation with the Dutch embassies and consulates. For a detailed explanation please refer to the Grant Application Assessment Explanation which can be found among the guidelines and formats under the link to this call.

4. Submit your proposal online

All TMT proposals have to be submitted via our web application Delta. We have prepared a TMT+ Delta User Manual to guide you through the application process. The Delta User Manual can be found among the 'Guidelines and formats' under the link to this call. Make sure you have all the information required for your application complete and ready before submitting.

WARNING: Please be aware that not all browsers work well with Delta. To be sure, it is preferable to make use of Edge or Google Chrome. Safari is known for not working well.

[Submit your joint proposal in Delta https://delta.nuffic.nl/Application/Apply/276](https://delta.nuffic.nl/Application/Apply/276)

5. Required documents

An application needs to contain the following documents to be complete. Incomplete applications will be rejected.

1. TMT+ Joint Proposal Form Orange Knowledge Programme

2. TMT+ Budget Form Orange Knowledge Programme
3. TMT+ COCA Form Orange Knowledge Programme
4. CVs of all proposed resource persons (there is no prescribed format)

Please note that a COCA check doesn't have to be applied for simultaneously with an application for a TMT+. A COCA can be applied for at any time. We advise you to apply for a COCA check before applying for a joint proposal, to make sure that your COCA is not a reason for rejection.

We welcome you to send COCA applications any time to okp@nuffic.nl referring to COCA.
