

Grant Application Assessment Explanation

Tailor-Made Training - Orange Knowledge Programme (OKP)

Joint Proposal

#	Weight	Assessment performed by the Embassy of the Netherlands in the respective country	Score
		Criterion	
1	1	The requesting organisation is a well-established, solid organisation that will be able to benefit from the training.	1-5
2	1	The requesting organisation has clearly explained what it wants to achieve.	1-5
3	1	The requesting organisation has clearly explained what problems it faces in its activities that prevent it from achieving its goals.	1-5
4	1	Has the organisation clearly described how the training contributes to the needs of the organisation?	1-5
5	1	The main assumptions about potential risks (internal or external factors) before the start and throughout the implementation are analysed and the measures to mitigate these risks are adequate.	1-5
6	2	The proposal shows synergy and coherence with other Dutch-financed programmes and/or ongoing NICHE/OKP instruments (institutional collaboration projects, tailor-made training, scholarships and alumni activities).	1-5
		Maximum score	35

#	Weight	Assessment performed by Nuffic	Score
		Criterion	
1	1	The organisation has clearly explained what it wants to achieve.	1-5
2	4	The proposal contributes to resolving the capacity needs identified in the call document.	1-5
3	1	The applying organisation has clearly explained what problems it faces in its activities that prevent it from achieving its goals.	1-5

4	1	The contribution of the TMT to solve the problems of the organisation is explained and the subjects which should be part of the TMT are mentioned.	1-5
5	1	The criteria to select participants are clear and the criteria assure that participants have a relevant background to participate in the training.	1-5
6	1	The organisation has convinced Nuffic that the maximum participation of women is ensured.	1-5
7	1	Attempts will be made to include participants of marginalised and discriminated groups in the training.	1-5
8	1	The main assumptions about potential risks (internal or external factors) before the start and throughout the implementation are analysed and the measures to mitigate these risks are adequate.	1-5
9	1	Nuffic is convinced that the work plan is adequate. Consider: number of days, subjects, training methods and location.	1-5
10	1	Gender equality is being addressed at organisational and educational level.	1-5
11	1	Extent to which equity and inclusion are addressed in the curriculum of the training, the way the training is offered and in the organisational strengthening	1-5
12	1	Systems of monitoring and evaluation are described, and adequate.	1-5
13	1	Sustainable embedding of the results: measures will be taken by the provider to ensure that what staff learned during the TMT will be applied in the organisation and that it will benefit the organisation in the long term.	1-5
14	1	Use is made of local or regional capacity, within the provider's consortium	1-5
15	1	Logical framework: there is a clear coherence between objectives, results, activities and inputs.	1-5
16	1	Provider has shown that it has relevant specialisation in the subject area of the training in question and in capacity-building of organisations.	1-5
17	1	The team leader has sufficient skills and experience to take the lead, and the team is experienced in the subject area of the training in question and in the country/region.	1-5
18	1	Comparing the proposal and the budget, the training offers value for money and the expenditures are reasonable for what is offered.	1-5
