**We are Nuffic**

Nuffic
The Dutch organisation for internationalisation in education.

Our ambition is for all pupils and students to gain international skills, either abroad or in their own country.

This is how we support international cooperation.

Nuffic knowledge centre & linking pin
We are a bridge between our clients, the education sector and knowledge institutions at home and abroad. We support schools and educational institutions in their internationalisation activities and connect them to each other and across borders. As a knowledge organisation, we contribute to internationalisation policy, among other ways, by making data on international mobility and education systems clear and understandable.

**Sustainable Development Goals**
We endorse and contribute to the UN’s Sustainable Development Goals.

**Offices abroad**
