

# Nuffic - Meet the world

We are the Dutch organisation for internationalisation in education. We want all pupils and students to have the opportunity to acquire international competences, whether at home or abroad. These will prepare them for a life and career in a diverse society and boost international cooperation.

## Knowledge centre and linking pin

We gather knowledge, expertise and experience for the benefit of Dutch educational and knowledge institutions. We support their internationalisation activities and challenge them to keep innovating against the background of a changing society. As a knowledge organisation, we make contributions to internationalisation policy by sharing data and research on mobility, the labour market and education systems.

## Offices abroad

Benin

Ethiopia

India

Indonesia

Jordan

South Africa

## Active in all sectors of education

### Primary, secondary and adult education
